DETAILED ACTION

Election/Restrictions

1. Claims 1-3 are allowable. Claims 4-9, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement between inventions I and II, as set forth in the Office action mailed on January 19, 2006, is hereby withdrawn** and claims 4-9 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim(s) including all the limitations of an allowable claim is presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Reason for Allowance

2. The following is an examiner's statement of reasons for allowance:

The novelty in the instant claims reside in the use of a betaine of the formula I, as recited in claim 1, to form a stabilized aluminum/zirconium/glycine salt having the particular molar ratios recited in claim 1. The prior does not teach or disclose said use for the betaine compound nor the combination of an aluminum/zirconium/glycine salt and betaine.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2 and 7 rejected under 35 U.S.C. 102(b) as being clearly anticipated by GB 1 479 132. The '132 GB patent discloses aluminum salts of betaine chloride useful in anti-perspirant and deodorant cosmetic compositions. Said salts have a betaine:chloride ratio of 1:1, betaine:aluminum molar ratio of 0.4-1.0:1 and chloride:aluminum ratio of 0.4-1.0:1. See examples

Allowable Subject Matter

3. Claims 3-6 and 8-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
